## About the Conference:

After the grand success of Eight Global Conferences, Global Scientific Guild is delighted to announce the 9<sup>th</sup> Global Webinar on Public Health which will be held during April 24-25, 2024 as a live online event.

The Global Scientific Guild conferences are the most innovative, valuable and unique educational platform for practitioners, students and advocates in the domain of "Public Health" who would like to expand their knowledge.

This conference unites many top doctors, experts, scientists, researchers and practitioners from around the world to share their views, exchange their vast knowledge in the domain of Public Health.

This program provides two days of robust discussions on recent advancements and new strategies for current revolutions in public health. Our aim is to promote quality research and real-world impact in an atmosphere of true international cooperation between scientists and students by bringing together world-class researchers, International Communities, and research heads to discuss the latest developments and innovations in the fields of public health.

All the registered participants will be provided with a certificate for participation & presentation and an abstract book of all accepted Abstracts.

We hope your valuable experience would create a scientific atmosphere during the conference days.

### **Benefits:**

- Expand your professional network by connecting with fellow Participants and speakers
- Engage in interactive discussions and Q&A sessions with the global experts.
- All the registered speakers and participants will be provided with a certificate for presentation and participation and abstract book of all accepted abstracts
